Monitoring the wellbeing of your local body of water

WHO ARE WE?

Ameneh Alcalá

Urban planner
Researcher
GIS expert

Antonio López

Full stack developer
Data Science
GIS expert

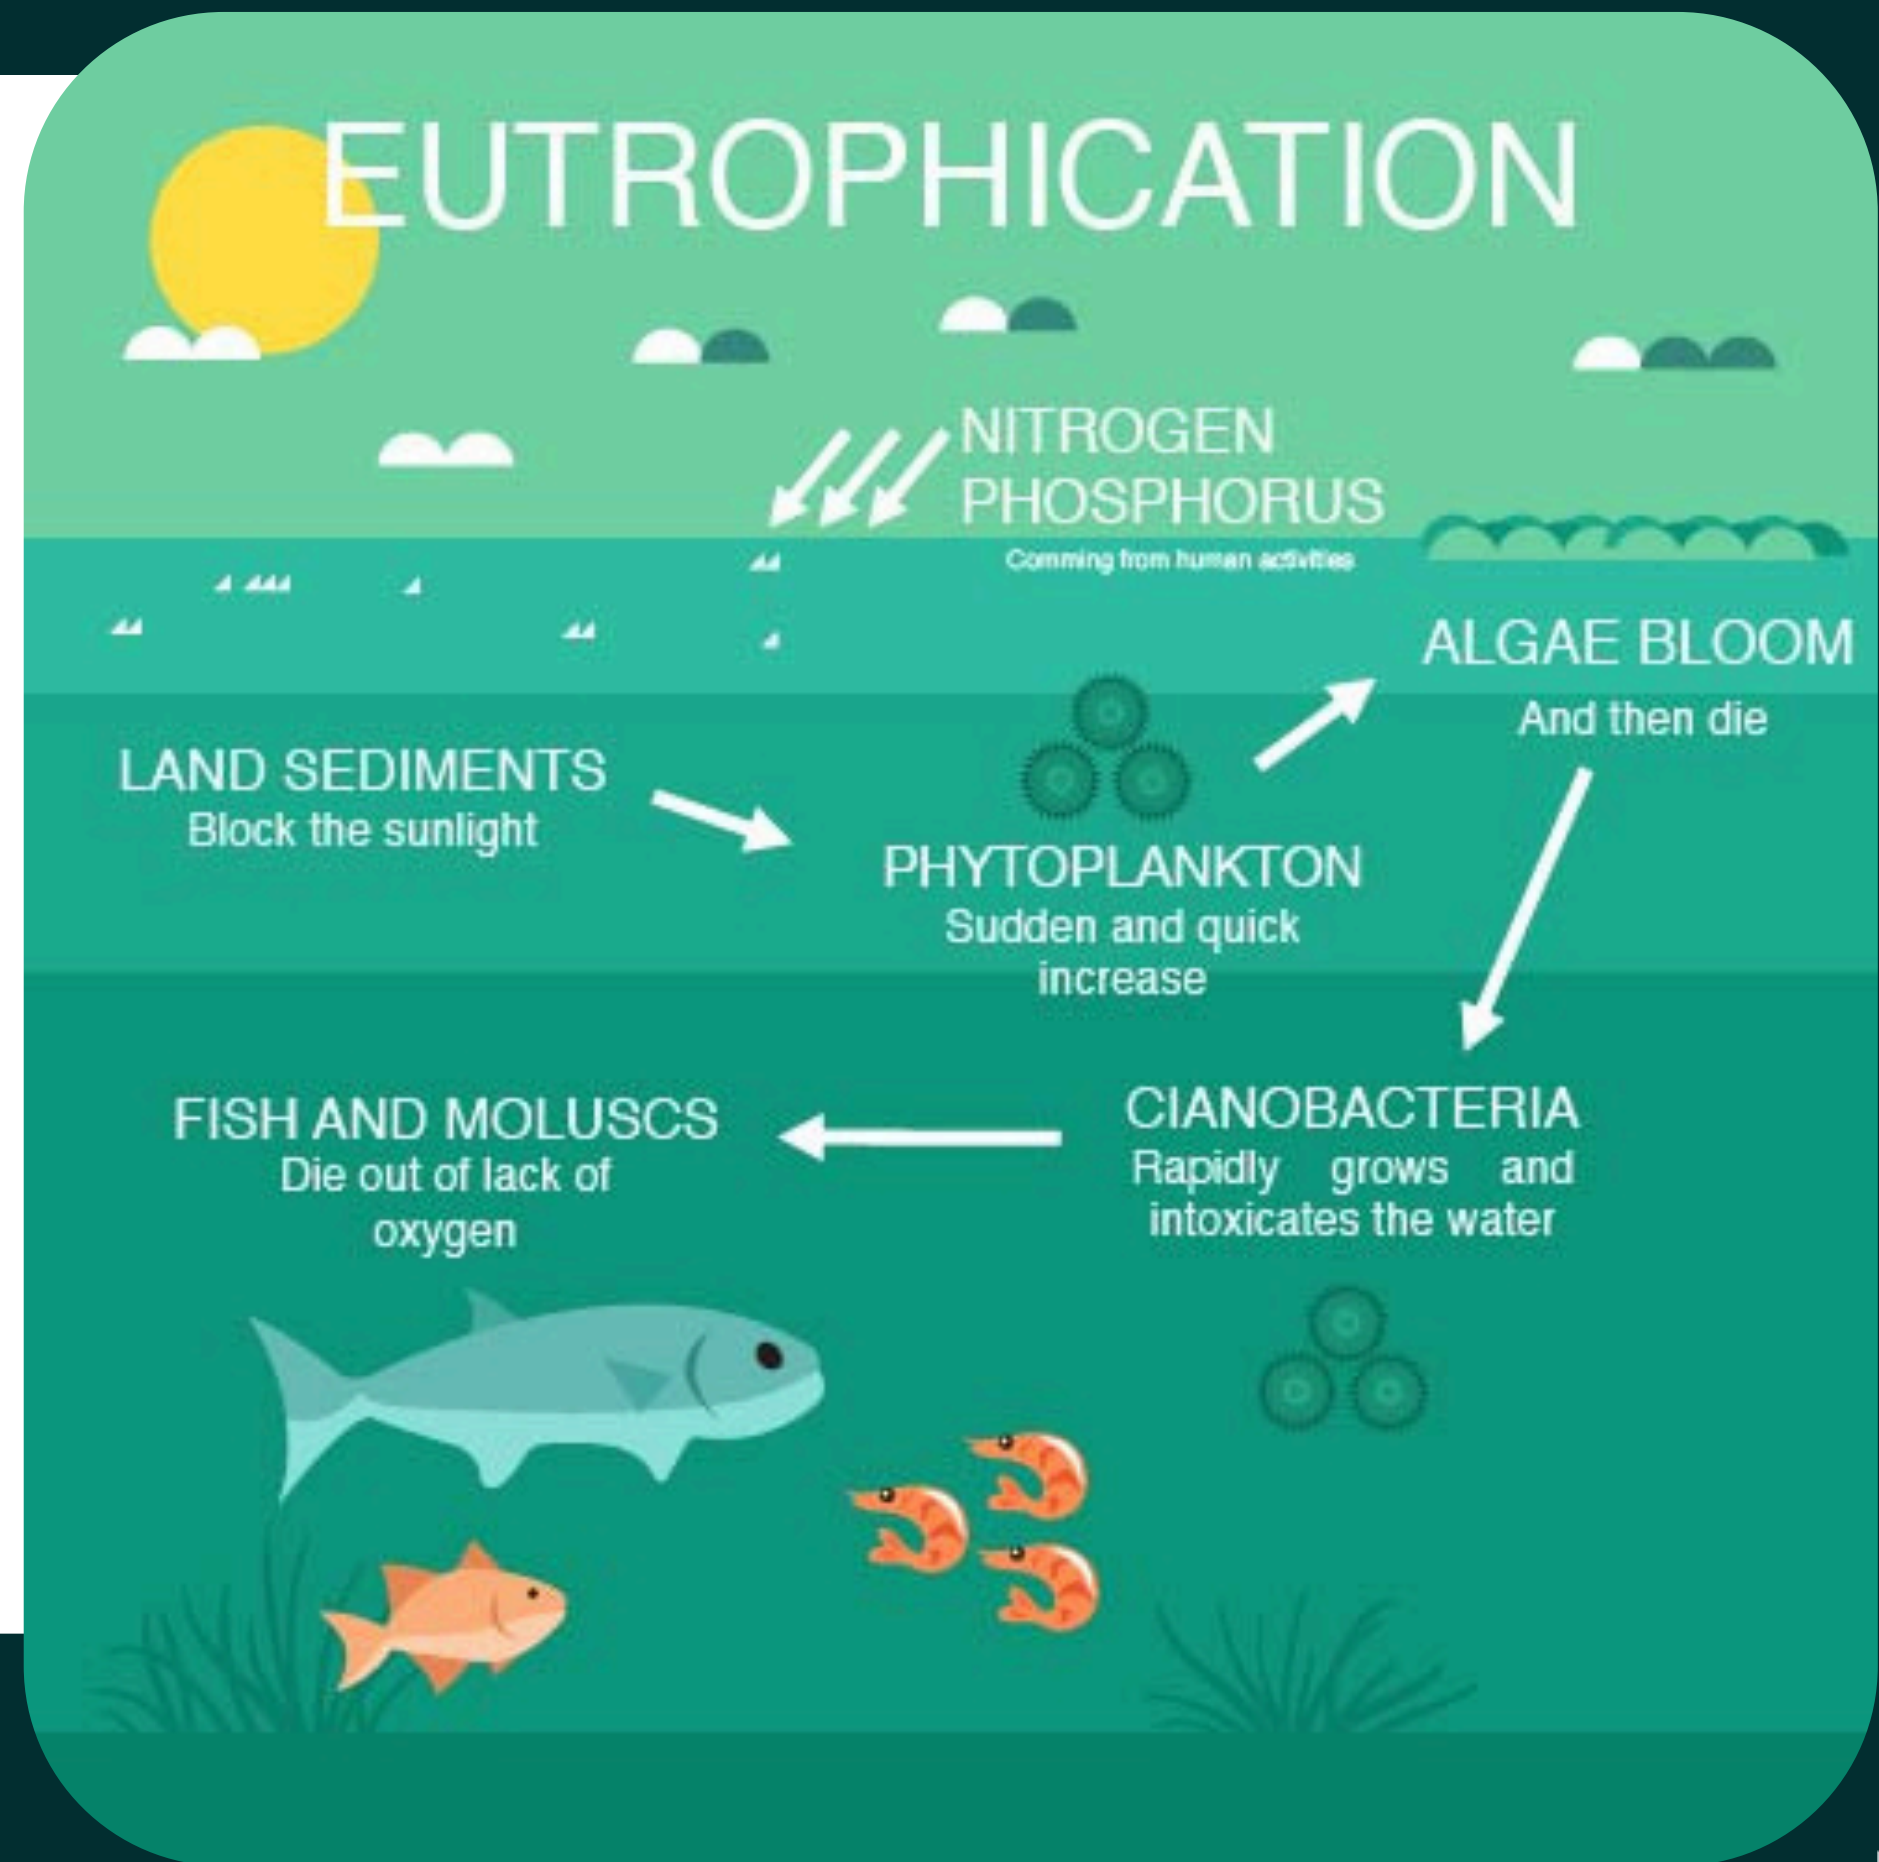

Ivan Pantaleoni

Geologist
Earth Observation expert

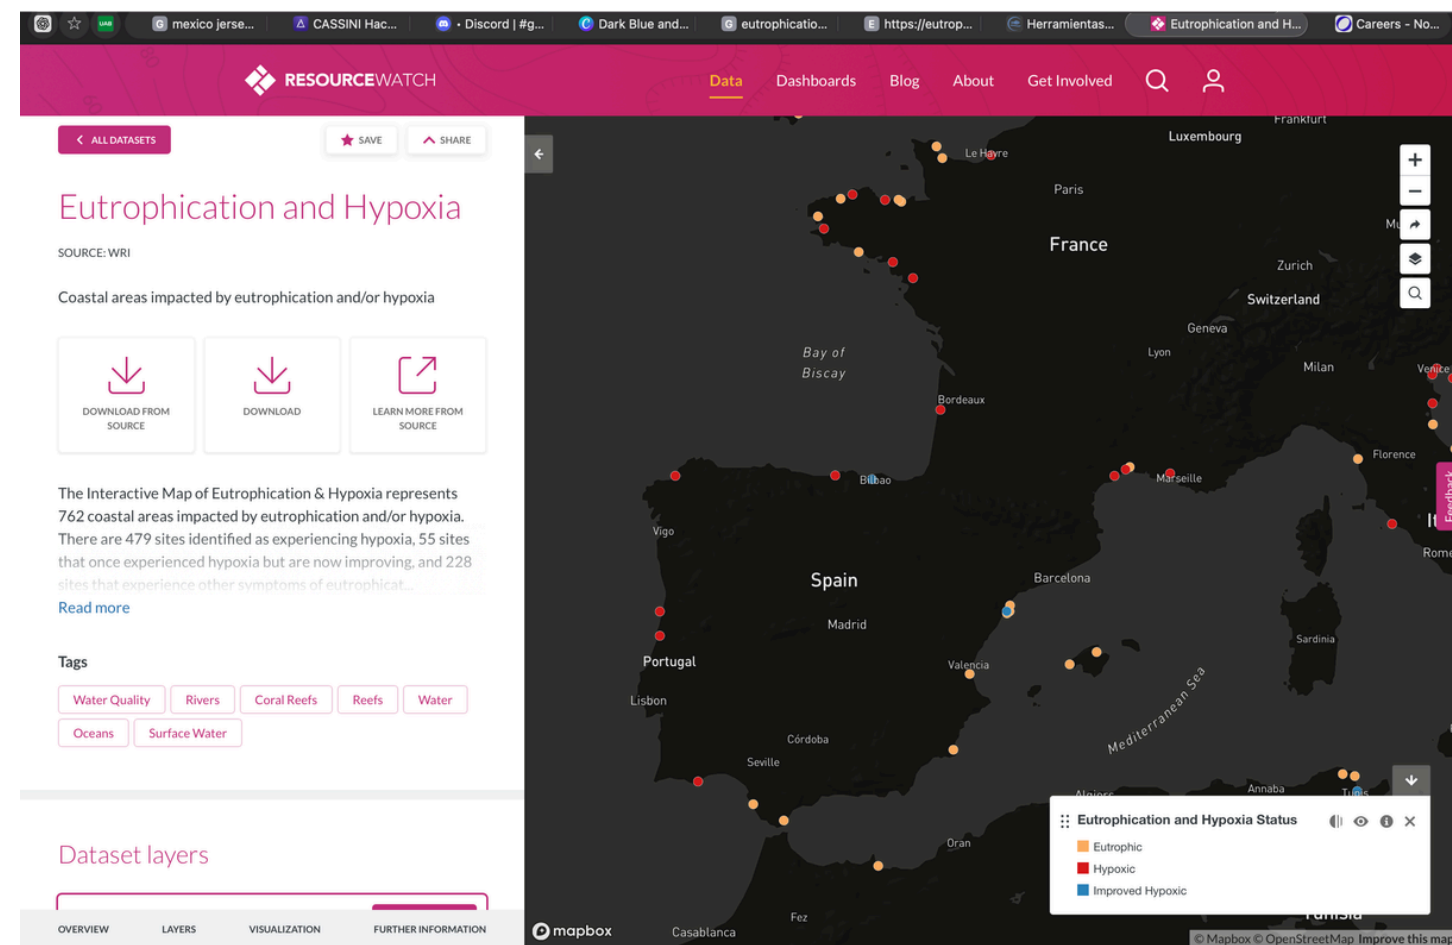

PROBLEM

- Ecosystem destruction
- Potable water contaminated
- Fishing compromised
- Tourism compromised
- **Thousands of people, flora and fauna affected daily all around the globe**

WHAT'S IN THE MARKET

- NO CONSTANT DATA

Data published but not updated constantly to see developments

- NO PUNCTUAL DATA

General data of the region
Data of specific regions of interest

- NO NOTICE OF DAMAGE

Situations can get worse without anyone noticing

OUR SOLUTION

- ANYWHERE IN THE WORLD

Worldwide data

- REAL TIME MONITORING

With new images every 5 days

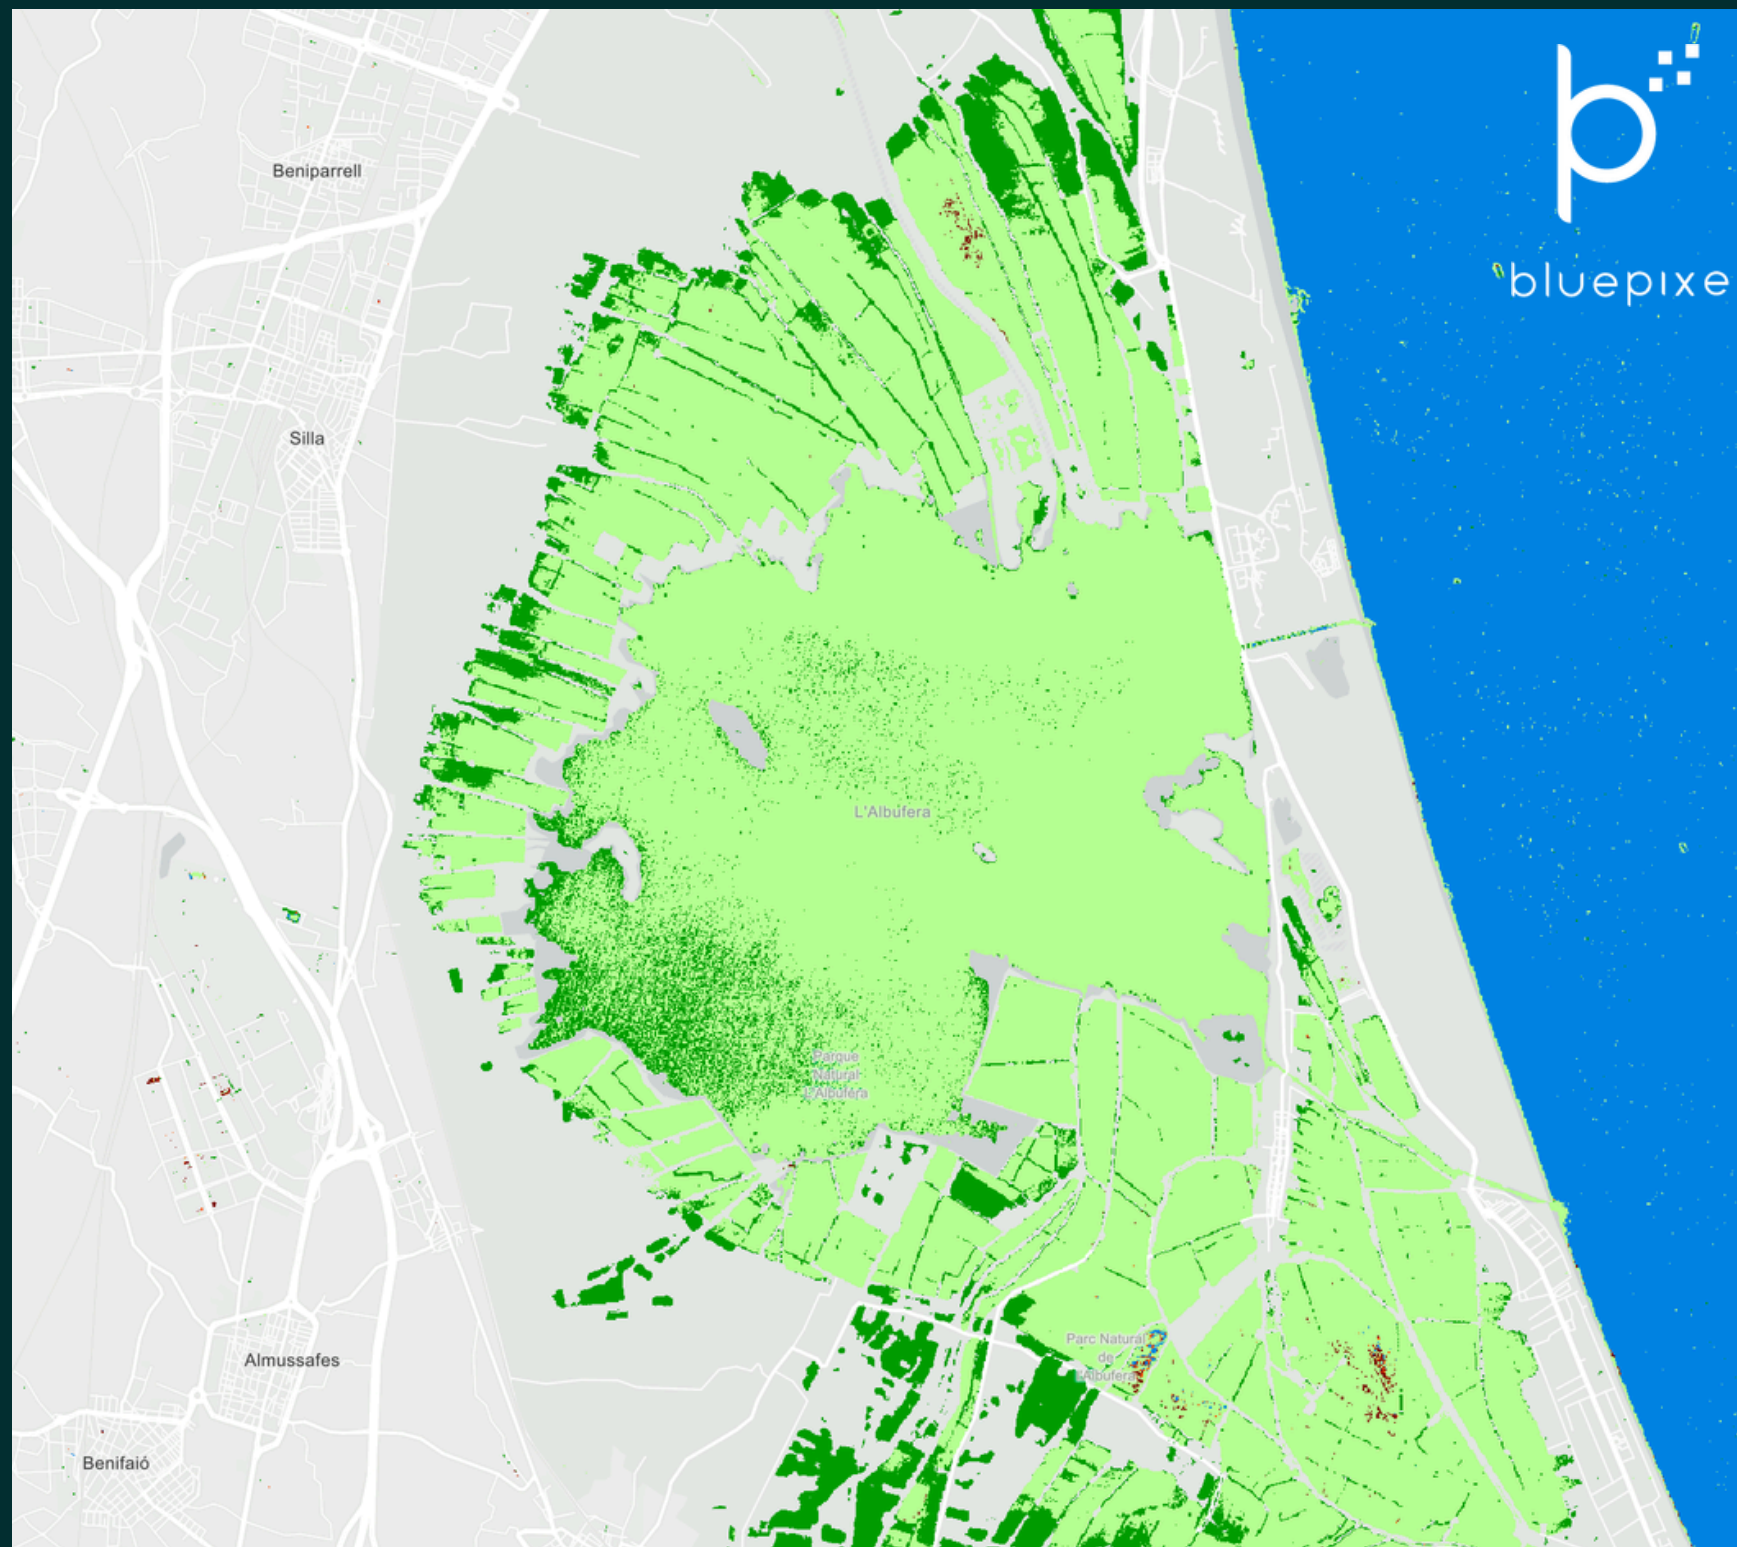

- HIGH PRECISION

No more general data, but detailed information

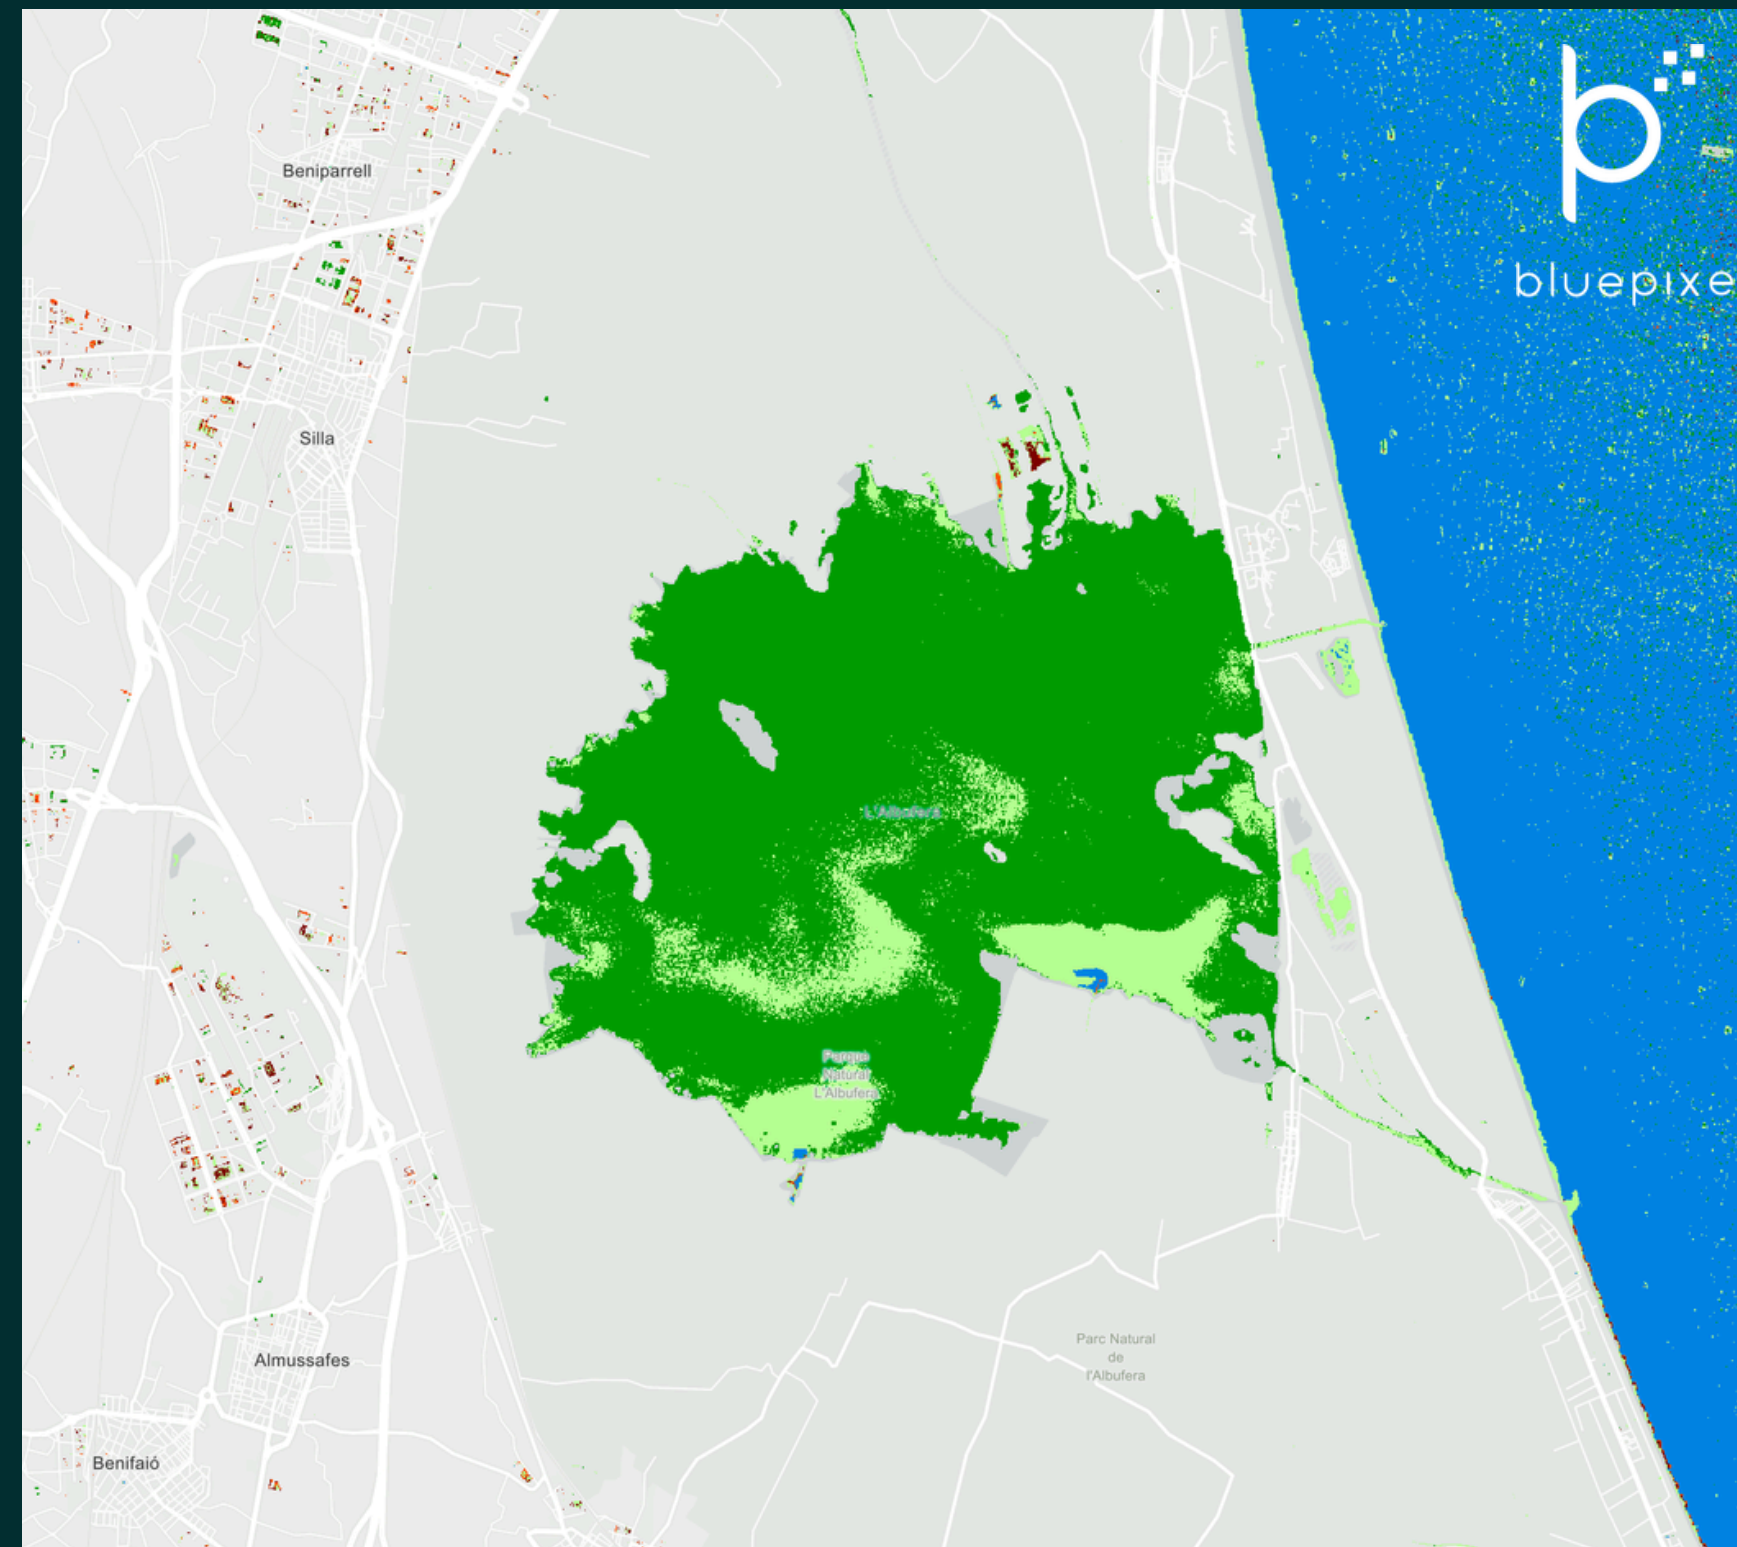

- ALARM SYSTEM

For interested entities

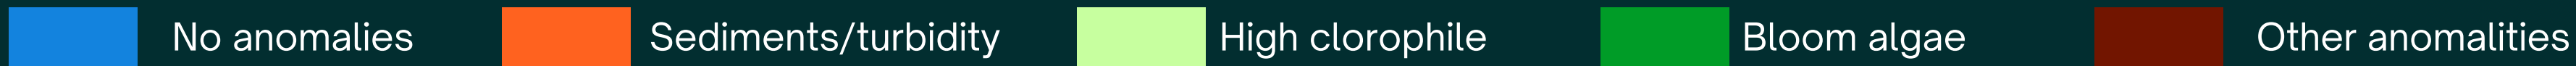

L'Albufera - November 30, 2024 (post DANA)

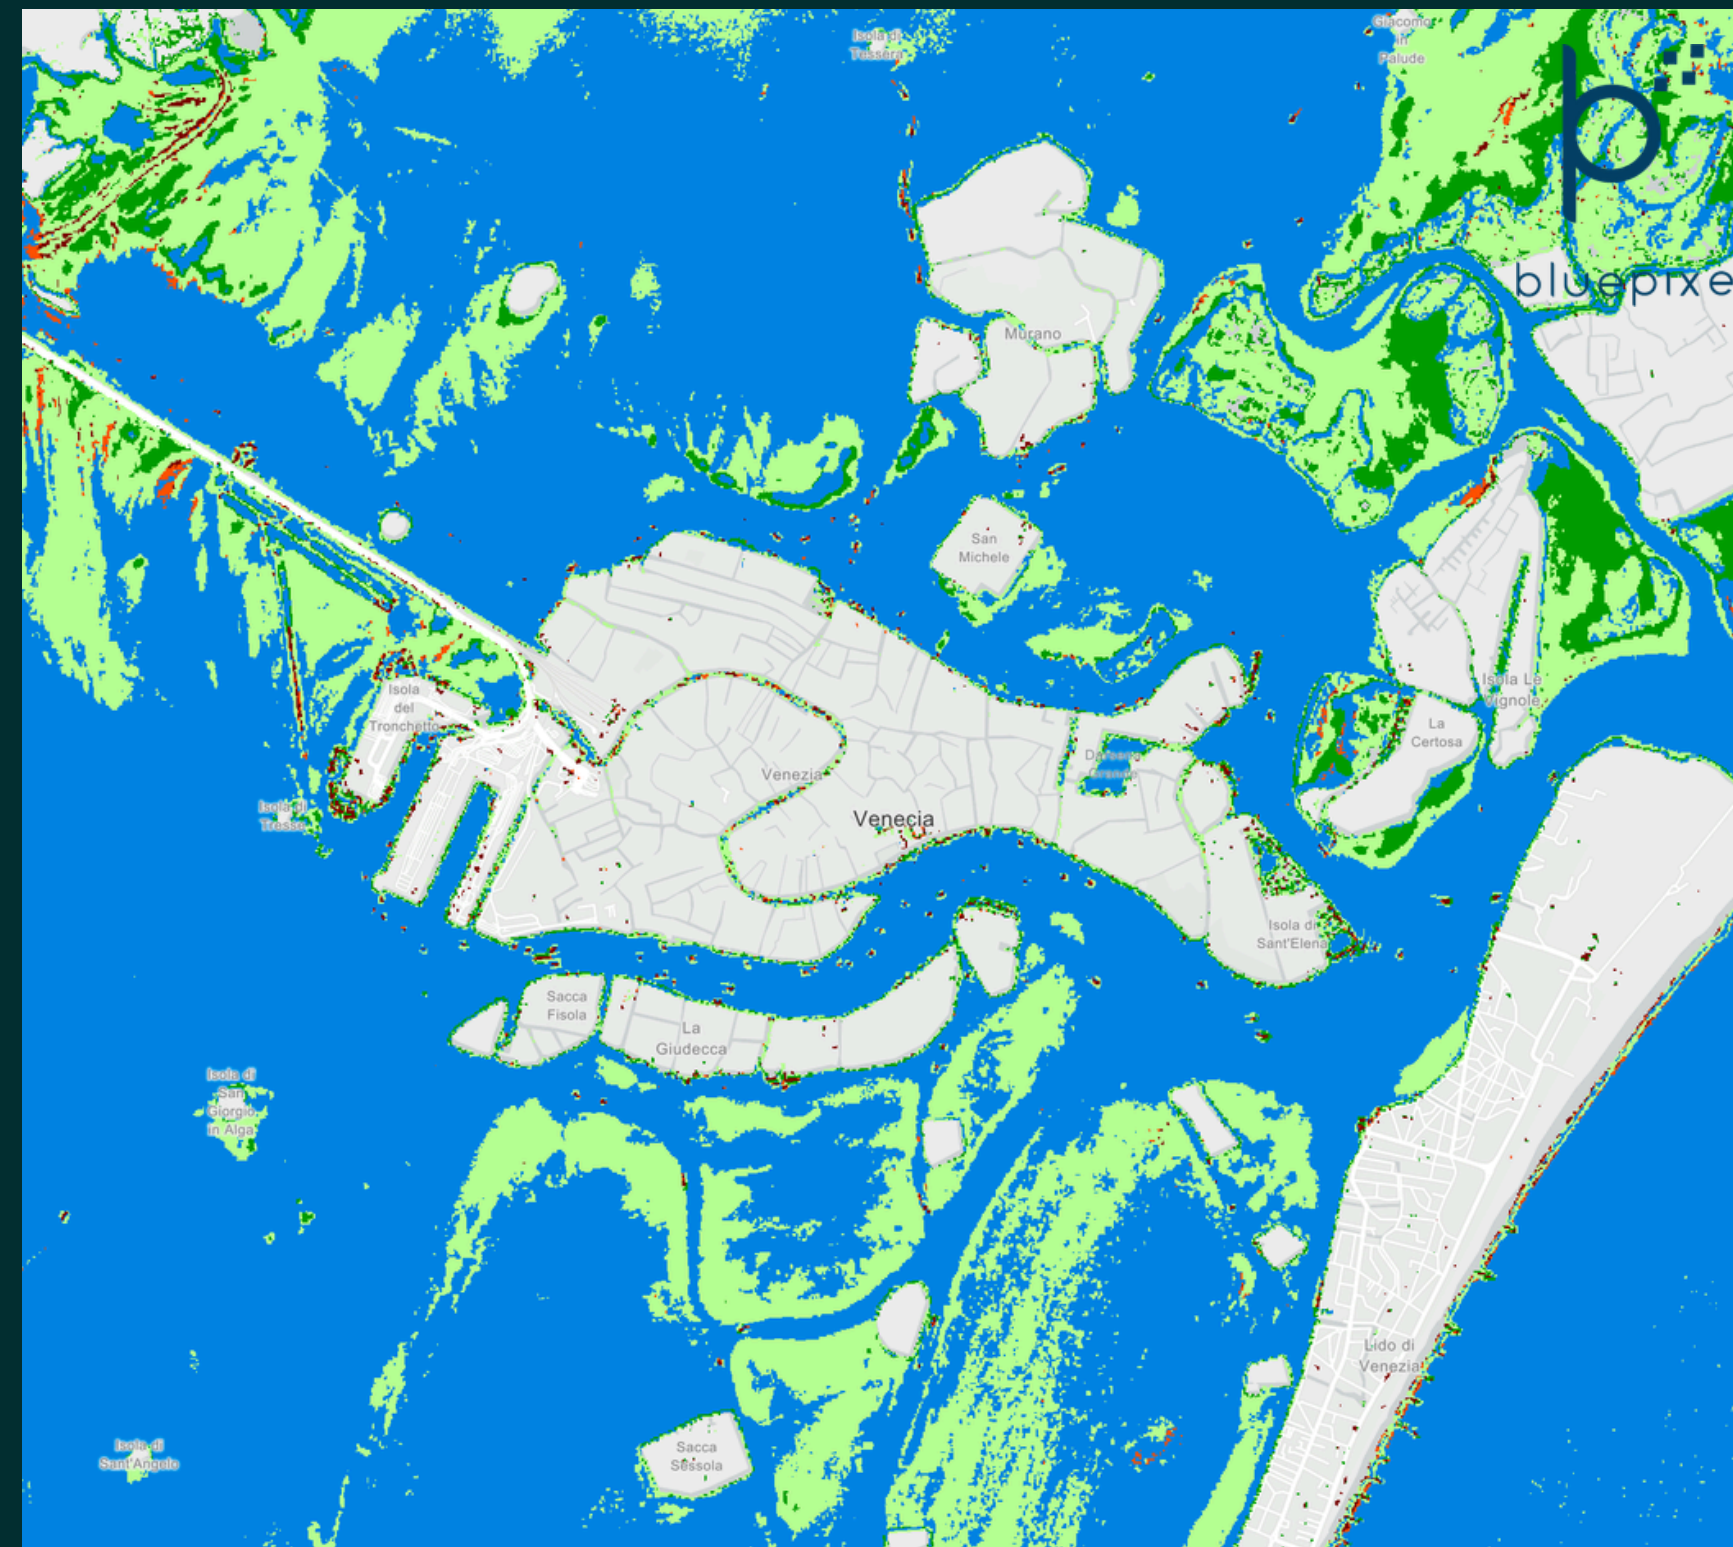

L'Albufera - April 19, 2026 (last week)

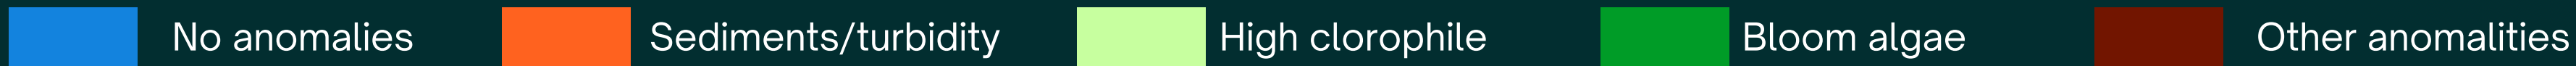

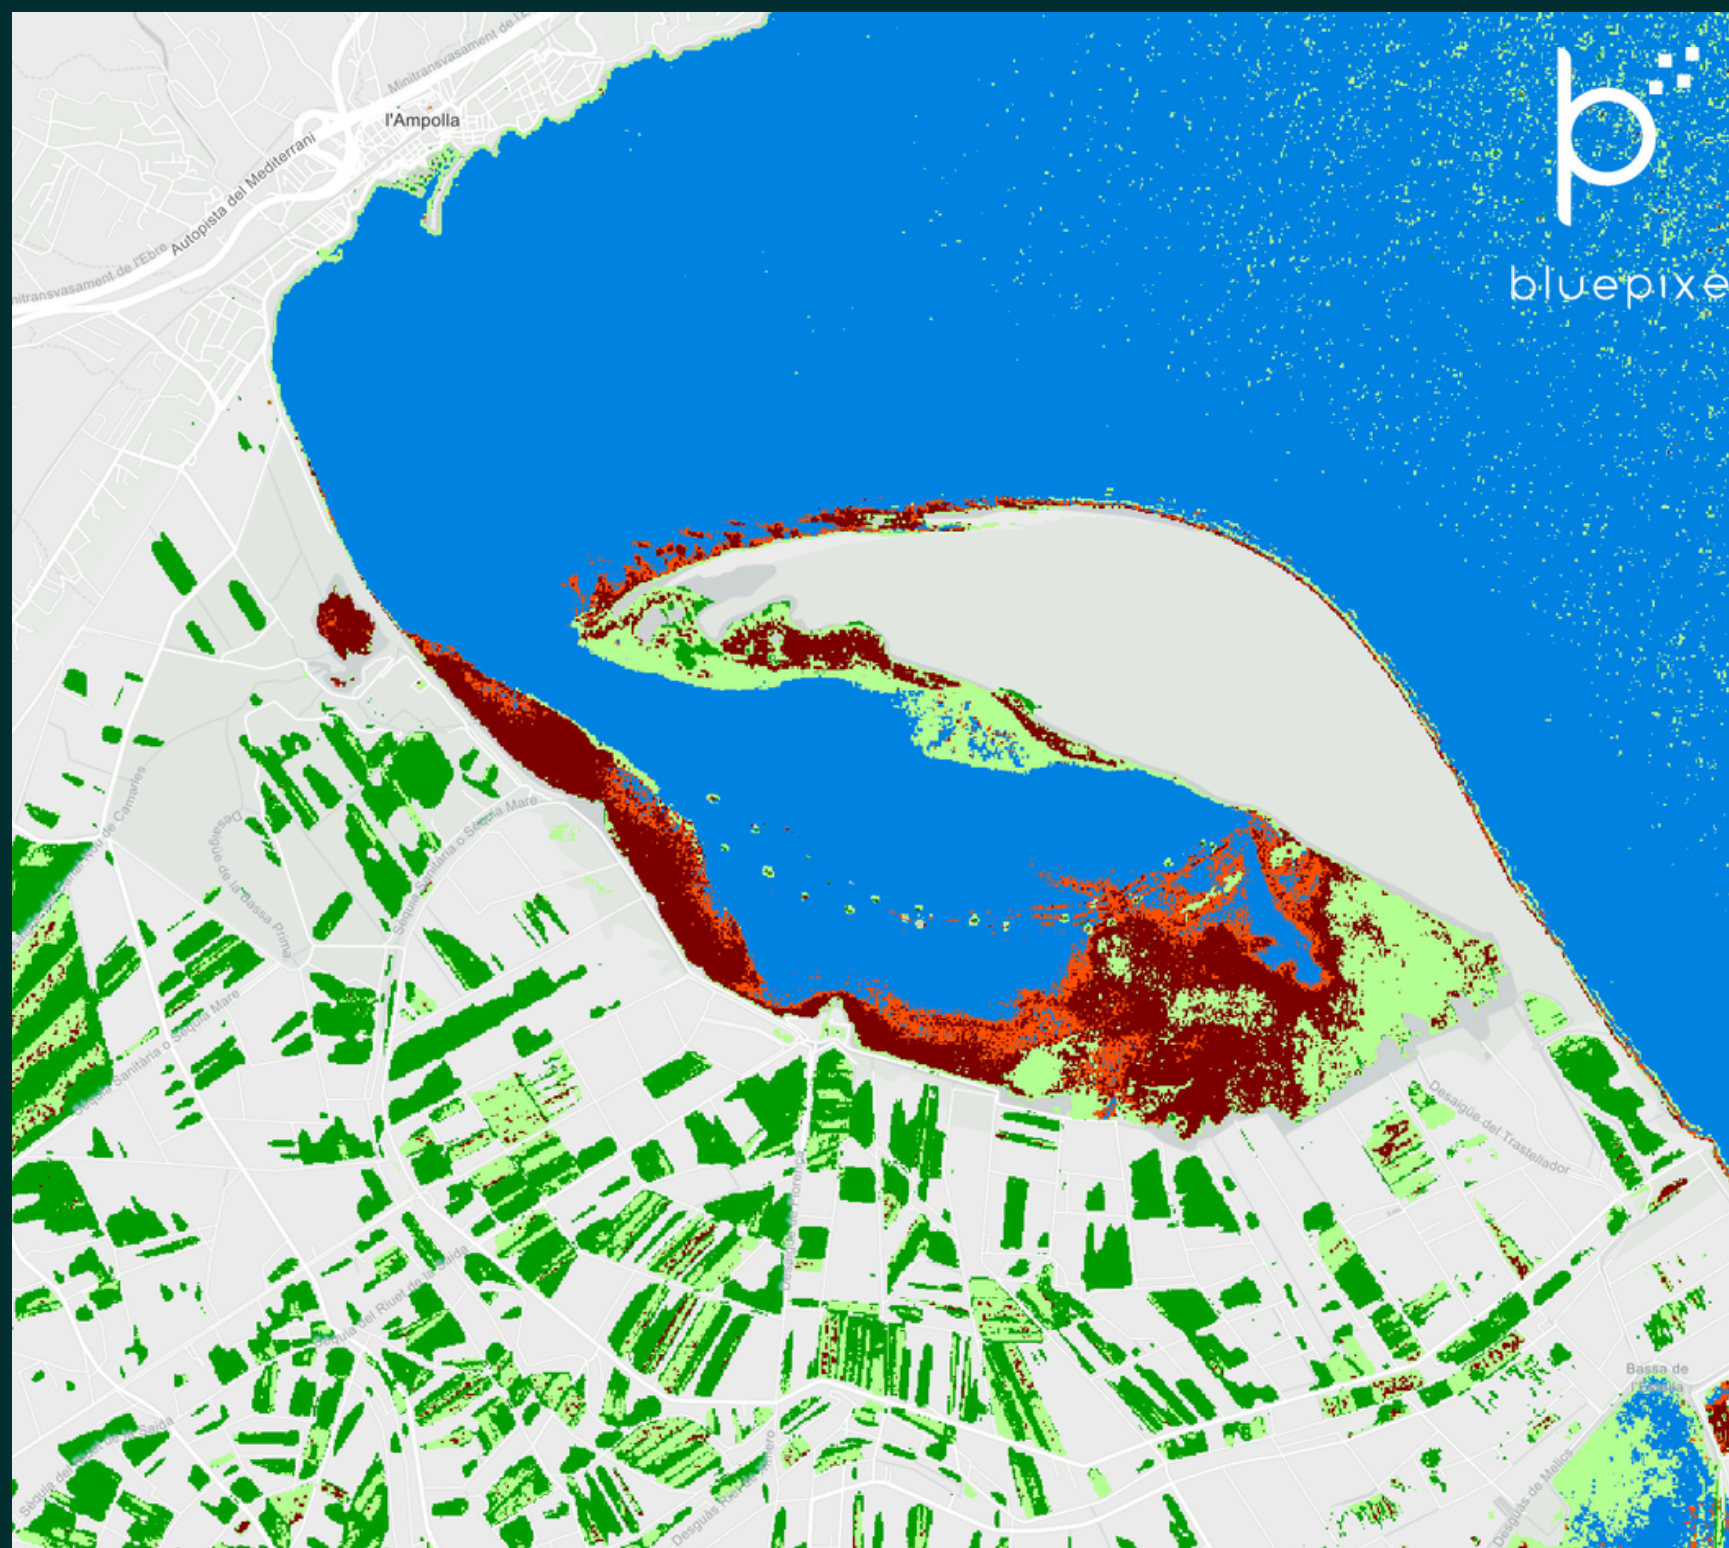

Venice - November 10, 2019 (during the inundation)

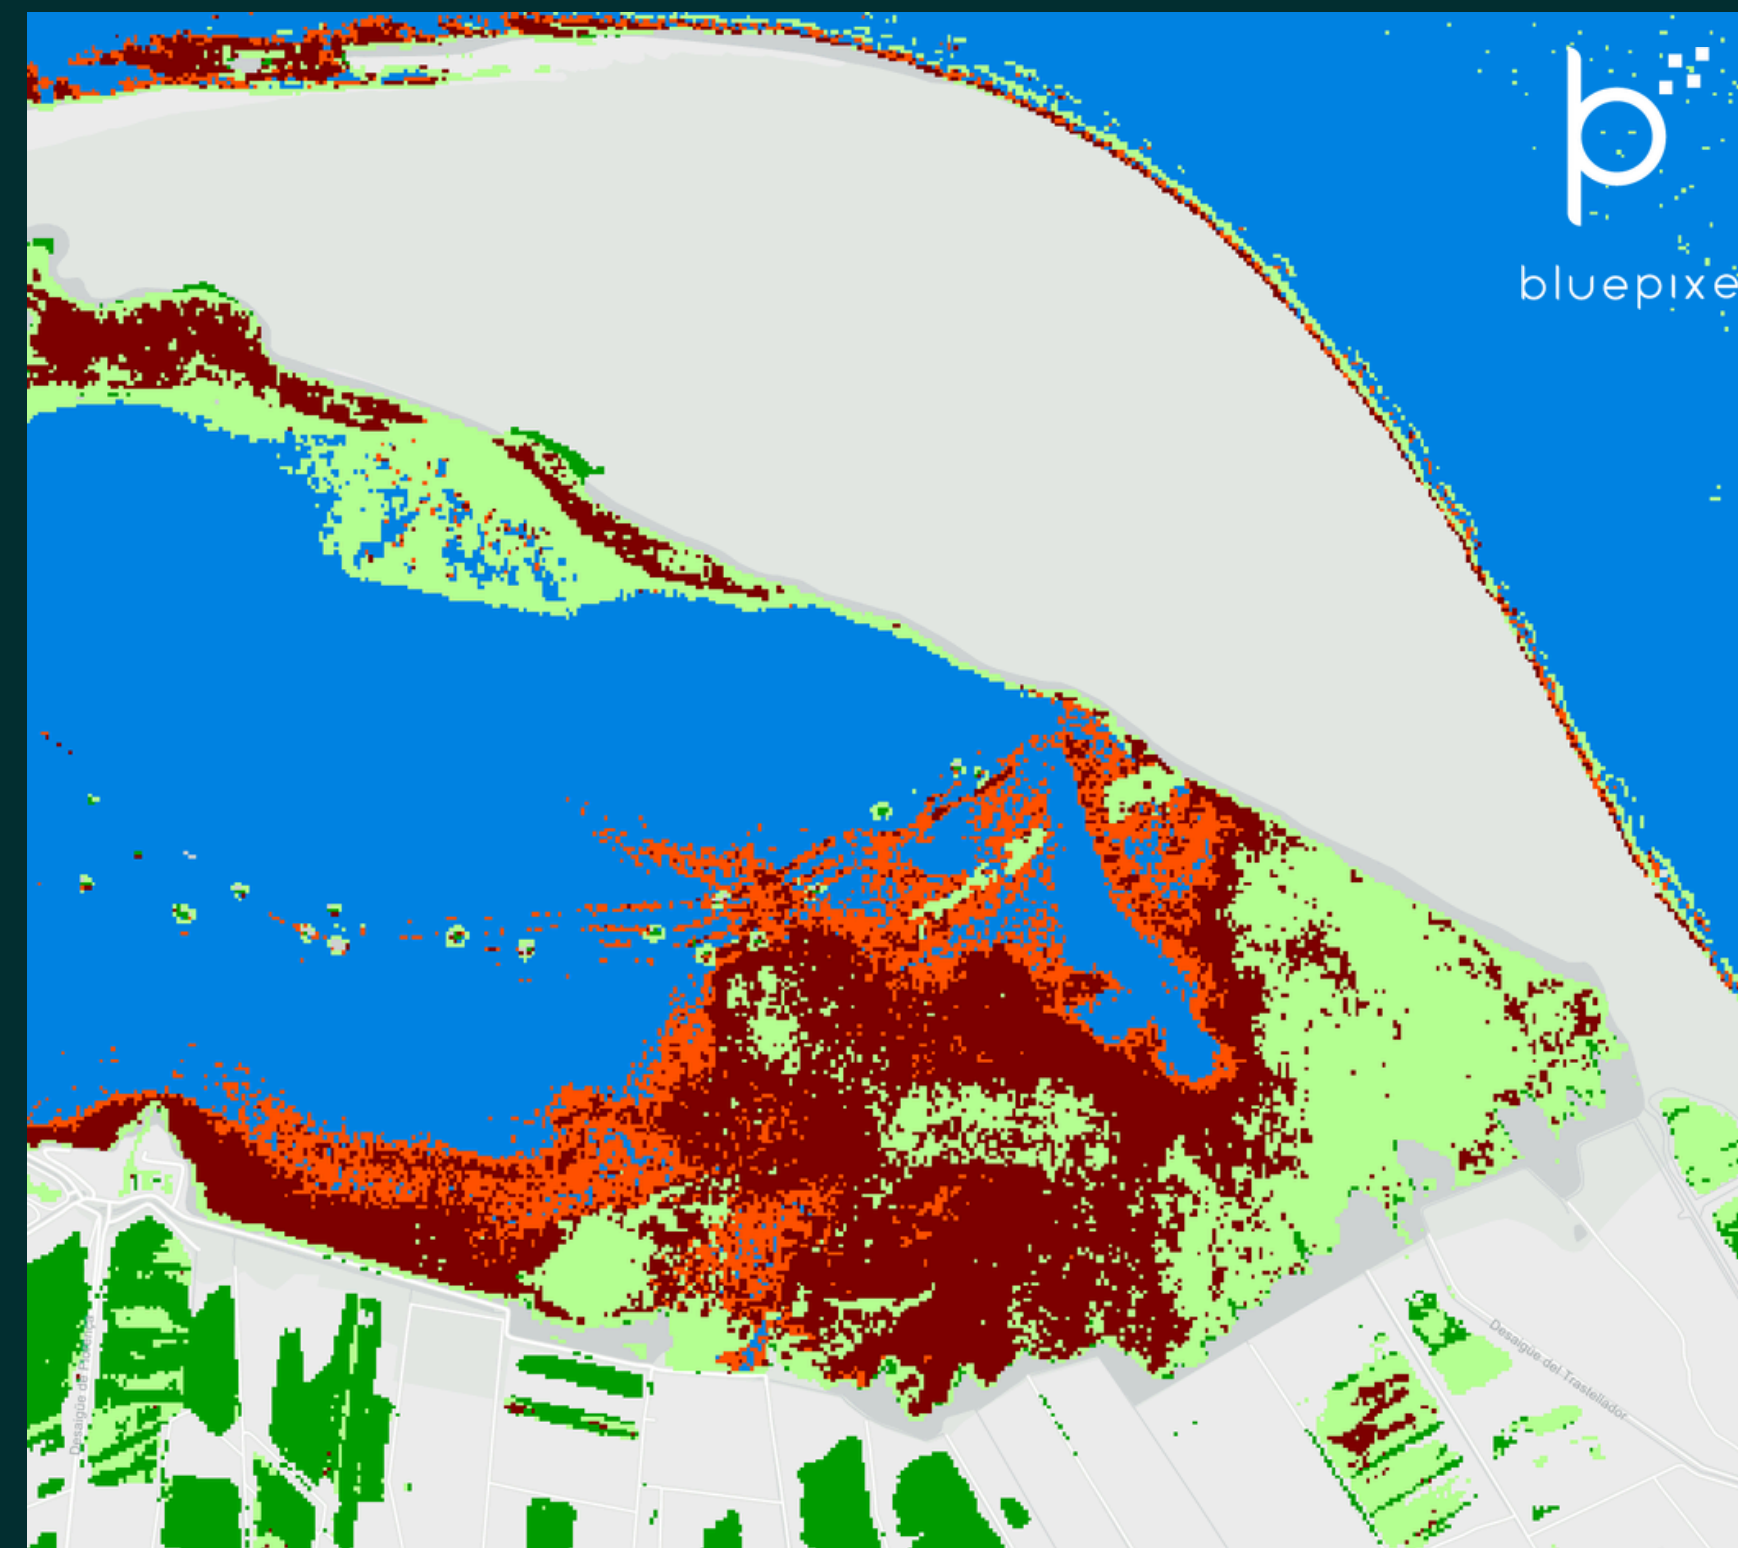

Venice - April 26, 2026 (last week)

Vall dell'Ebre - November 22, 2025

Vall dell'Ebre - November 22, 2025
